FOR IMMEDIATE RELEASE

## **NRT TECHNOLOGY CORP. ACQUIRES TNS SMART NETWORK INC. (“TNS”) AND SMART PROCESSING SOLUTIONS (“SPS”)**

Toronto, ON – Thursday April 2, 2009 - [NRT Technology Corp.](http://www.nrttech.com) today announced that it has acquired Toronto - based [TNS Smart Network](http://www.tns-smart.com) Inc. and Smart Processing Solutions Inc. Through this acquisition, NRT diversifies its business, creating a synergy to provide additional solutions to meet customers' needs.

**TNS** is the largest [ATM](http://www.atm.com) processor in Canada for non-bank branch ATM services. TNS services 143 Independent Sales Organizations, or ISOs, representing some 12,000 ATM devices throughout Canada performing over 50 million transactions per year. **SPS** is primarily a technology company that licences switch technology to non-Canadian ISOs. Their primary customer base is in the U.S. and extends as far as New Zealand.

[John Dominelli](http://www.nrttech.com), President & CEO of NRT Technology Corp. said, “This acquisition is very exciting, it creates an entirely new channel of business and technological capability for NRT and is highly complementary to our existing business and future plans. I truly believe that this acquisition will make NRT an even more successful company going forward”.

Dominelli credits NRT's success on the ability to recognize great opportunities and market trends and react swiftly to customers' requirements. “We work to suit the customers' requirements, we listen to them and we adapt our products accordingly; it's all about our commitment to our customers”.
