

FOR IMMEDIATE RELEASE

**Smart Processing Suite™ software enables Venetian Casino multi-purpose Kiosk to dispense cash**

**Toronto, Ontario, February 5th, 2008** – Smart Processing Solutions Inc., a leading provider of transaction processing software solutions and a division of TNS Group of Companies, announces that Automated Systems America, Inc. (ASAI), with its Head Office in Glendale, California, is using the Smart Processing Suite™ software solution as its in-house processing switch to drive the Venetian multi-purpose Kiosk as cash dispensing ATMs.

“Simply put, the Smart Processing Suite continues to be the foundation for our success,” states John Steely, President of ASAI. “The flexibility in the Smart Processing Suite software solution allows us to acquire prestigious clients such as the Venetian Resort Hotel Casino, one of the largest hotel casinos in the world.”

The Smart Processing Suite is the processing platform that drives the Venetian’s kiosks as ATMs for cash dispensing. ASAI created a solution for the Venetian, where the TITO Kiosk (ticket in/ticket out kiosk used to redeem slot tickets) would operate as a full function ATM for cash dispensing. This provides the Venetian with the following benefit, says Mr. Steely, “the Venetian works with just one piece of equipment, less floor space is taken up and the employees only need to fill one machine with cash.”

“We are very proud of our solutions and the opportunities they continue to create for our clients, especially in support of Casinos who are probably one of the most demanding, in terms of their transactional uptime and service requirements,” says Mr. Mischa Weisz, President & CEO, Smart Processing Solutions Inc.

**About Automated Systems America Inc.**

ASAI was formed in 1996 and today, processes transactions for nearly 3,200 ATMs throughout the United States, making it one of the largest bank-sponsored ATM processors in the country. In addition to its transaction processing programs, ASAI specializes in providing funds and armored car services for loading almost any ATM. ASAI prides itself on being at the forefront of the best compliance, due diligence and security practices available. The company’s growing success can be attributed to its commitment to ongoing research and development, as well as its attention to providing the highest level of customer service.
