

**FOR IMMEDIATE RELEASE**

**SMART PROCESSING SOLUTIONS LAUNCHES SMARTISSUERPRO™ – COMPREHENSIVE CARD ISSUING & CARD MANAGEMENT SOFTWARE SOLUTION**

**Toronto, Ontario, August 25, 2008.**, – Smart Processing Solutions Inc. (SPS), a leading electronic transaction software provider for in-house Acquiring and Issuing solutions, announces the launch of their latest solution, **SmartIssuerPro™**. The SmartIssuerPro is a comprehensive card issuing and card management software, uniquely designed to permit Financial Institutions, Independent sales organizations (ISOs), Processors and Retail organizations the capability to issue and manage their own debit, prepaid, loyalty, gift, gaming, and credit cards programs in-house.

The SmartIssuerPro is a flexible and customizable card issuing and card management software solution that is easy to implement, operate, and maintain. This real-time rule based system permits users to create and manage unique card products within shorter time frames. The SmartIssuerPro can also be integrated with the Smart Processing Suite™ family of solutions to deliver a complete end-to-end transaction switching, processing and authorization solution.

A number of global SPS's clients have successfully launched their card programs on the SmartIssuerPro platform permitting them to increase card payment revenues *"We strive to deliver flexible innovative solutions that will assist our clients to become more profitable"*, said Mischa Weisz, President and CEO of Smart Processing Solutions Inc. *"We are very thrilled on how popular this solution has become in the market place."*
