

FOR IMMEDIATE RELEASE

TNS HITS 9,000 WHITE LABEL ATMS; 10,000 EXPECTED BY END OF YEAR

Toronto, Ontario, October 11, 2006 – TNS Smart Network Inc., Canada's largest privately owned processor, announced today that it continues to experience tremendous growth in the deployment of "white label" ATMs in Canada. With 9,000 ATMs deployed on TNS Smart Network Inc. (TNS) in October, TNS is confident it will hit 10,000 ATMs by the end of this year.

"Currently, TNS represents close to 20% of the Canadian ATM marketplace and maintains a volume of ATMs equivalent to 50% of all the ATMs deployed by Financial Institutions in Canada combined", stated Mischa Weisz, President and CEO of TNS Smart Network Inc.

Since 1997, on average, 1,000 new ATMs have been added to the TNS' network annually and TNS expects this rate to continue. "TNS has already experienced an exceptional start to the year, and with 10,000 ATMs expected to be deployed on TNS by the end of the year the future continues to look bright," commented Weisz.

TNS remains committed to empowering customers with advanced self-service wireless tools and its recent decision to join the BlackBerry™ ISV Alliance will further enhance WEBMON™ – a cutting edge monitoring and reporting Web and wireless tool and a key contributor to TNS' successful growth.

TNS fundamentals, including reliable, secure transaction processing combined with exceptional customer service and self service tools have continued to benefit customers and TNS. TNS Smart Network Inc. looks forward to continued market growth in the years to come.

About TNS Smart Network Inc.

TNS Smart Network Inc. is a privately owned Canadian company providing the gateway for networking services between Financial Institutions and ATMs in both, the financial and retail marketplaces. TNS has enjoyed tremendous success in partnering with "white label" ATM companies in the deployment of machines from coast to coast. The company is headquartered in Toronto, Ontario.
