

FOR IMMEDIATE RELEASE
April 15, 2008

**TNS Portfolio of Installed ATM's Surpasses the 11,000 Mark
More Than Double the Size of the Largest Bank ATM Network**

Toronto, Ontario, April 15, 2008 - TNS Smart Network Inc., Canada's largest ATM processor, announced today that it has exceeded 11,000 3rd Party ATMs installed on its network. The strength of the Canadian ATM industry coupled with the confidence of Independent Sales Organizations and Merchants in TNS Smart Network's superior service and support is driving more ATMs to TNS Smart Network, surpassing all expectations. TNS Smart Network's installed ATM base represents a volume of ATMs equivalent to over 70% of all the ATMs deployed by the Big Five Banks in Canada.

"It never ceases to amaze me with the continued growth of our network" said Mischa Weisz, President and CEO of TNS Smart Network Inc. "Compared to the Banks, our installed base of ATM's is more than twice the size of the largest bank's ATM base. And the Banks only increased their installed ATM base by 2.1% between October 2006 and October 2007. TNS Smart Network Inc. increased our installed base by 7.5% in just under 6 months from October 2007 to the present.", said Mr. Weisz. (see table below)

Mr. Weisz added that, "The momentum that has driven us to where we are today is what we strive to maintain by offering the best customer service, the most innovative products and services, and giving the card holder what they want...access to their money, anytime, anywhere. The end result is that in 2007, TNS Smart Network Inc. processed over 50 million ATM transactions."

Number of installed ATM's by entity*

TNS Smart Network Inc.	11,066
Royal Bank of Canada	4,419
CIBC	3,730
TD Canada Trust	3,344
Scotiabank	2,852
Bank of Montreal	1,978

* Bank information as at October 31, 2007
